

TIM FOX

Principal Network Engineer | Network Infrastructure Leader

United States | Open to Remote and Onsite Roles | timfox2025@tim.army | <https://github.com/derg20>

PROFESSIONAL SUMMARY

Principal Network Engineer and technical leader with more than 20 years of experience designing, deploying, securing, and supporting mission-critical enterprise, data center, healthcare, and federal networks. Combines hands-on multi-vendor engineering expertise with people leadership, an MBA, and a record of mentoring teams through complex infrastructure deployments and operational challenges.

CORE EXPERTISE

Networking: BGP, OSPF, MPLS, IPv4/IPv6, VLANs, ACLs, Cisco IOS/IOS-XE/IOS-XR, ACI/APIC, and Juniper JUNOS.

Security and Data Center: Palo Alto, F5, Gigamon, TACLANE, Dell VxRail, VMware, Linux, and Red Hat Enterprise Linux.

Leadership and Delivery: People management, team development, architecture, deployment planning, documentation, stakeholder communication, and escalation management.

CERTIFICATIONS

- **Networking and Security:** Cisco CCNP Enterprise, Cisco CCNA, Juniper JNCIA-Junos, GIAC GCED, CompTIA Security+ CE, and Fortinet Certified Associate in Cybersecurity.
- **Cloud and Data Center:** AWS Certified Cloud Practitioner, Dell VxRail Deploy Version 2, and VMware VCA-DCV.
- **DoD Workforce Qualification Alignment:** DoD 8570 IAT II and IAT III; DoD 8140-aligned qualifications.

PROFESSIONAL EXPERIENCE

LEIDOS INC. | Supervisor / Principal Network Engineer | March 2026-Present

- Lead 2 direct reports within an approximately 12-person infrastructure engineering team; remove operational blockers and provide technical development across Cisco, Juniper, Dell, and Red Hat technologies.
- Provide senior technical direction for complex multi-vendor network and infrastructure escalations.

FEDITC | Senior Network Engineer | July 2025-March 2026

- Co-designed classified and unclassified Air Force aircraft networks, evaluated pre-release TACLANE equipment, and delivered Tier 3 support for executive aircraft communications.
- Resolved Cisco IOS-XE, Palo Alto, routing, switching, firewall, and virtual-network issues in mission-critical environments.

AKIMA / TUNDRA LLC | Senior Deployment Network Engineer | April 2024-July 2025

- Authored designs, implementation plans, test procedures, and technical documentation while deploying Cisco, Dell, and VMware infrastructure and mentoring engineering teams.

MSM TECHNOLOGY INC. | Senior Data Center Network Engineer | November 2022-March 2024

- Engineered Cisco ACI, Juniper, F5, Gigamon, routing, switching, security, and IPv6 access-control solutions across enterprise data center environments.

LEIDOS INC. | Lead Infrastructure Network Engineer | November 2019-November 2022

- Led multi-vendor engineering and Tier 3 escalation support for BGP, OSPF, MPLS, firewalls, load balancers, Linux, routers, switches, and servers.

BJC HEALTHCARE | Senior Cisco Network Engineer SME | July 2017-January 2019

- Served in a lead engineering role for a \$9.7 million hospital network modernization supporting 2 hospitals and more than 40 clinics.

LEIDOS / LOCKHEED MARTIN | Senior Network Engineer SME | March 2016-July 2017

- Supported DISA Joint Regional Security Stack engineering through a contract transition, troubleshooting Cisco, Juniper, Palo Alto, F5, Gigamon, Linux, BGP, OSPF, and MPLS environments.

UNITED STATES ARMY | Information Technology Specialist | April 1999-March 2006

- Managed 2 Internet cafes with 100% availability, supported approximately 800 users, and earned recognition for deploying the Defense Messaging System in Germany.

EDUCATION

WEBSTER UNIVERSITY - St. Louis, MO

Master of Business Administration | March 2025

Coursework included business and financial analysis, accounting, business strategy, and Securities and Exchange Commission filings.

MICHIGAN TECHNOLOGICAL UNIVERSITY - Houghton, Michigan

Bachelor of Science, Computer Networking and Systems Administration | 2011-2014

Coursework included project management, Cisco enterprise networking, network security engineering, Linux administration, and Windows Server administration.

JEFFERSON COMMUNITY COLLEGE - Watertown, New York

Associate of Applied Science, Computer Information Systems | 2007-2010

Foundational studies included information systems, computer networking, systems administration, and technical support.

PROFESSIONAL DEVELOPMENT

- CCIE Enterprise Infrastructure Advanced Training, Micronics Training | December 2025.
- AWS Certified Cloud Practitioner Essentials, Amazon Web Services | May 2025.
- Dell VxRail Installation and Implementation Training | October 2024.
- CCIE Routing and Switching Advanced Training, Micronics Training | February 2017.
- Developing the Leader Within Workshop, Atlanta, Georgia | August 2006.
- Studied the five levels of leadership as a framework for leadership development and organizational success.

TECHNICAL LAB

- Maintain a multi-vendor infrastructure lab incorporating Cisco routing and switching, Dell VxRail, virtualization technologies, servers, and network-security appliances.
- Develop and maintain the public Enterprise Infrastructure Handbook in Markdown, integrating architecture concepts, configuration guidance, Bash automation, troubleshooting procedures, and hands-on labs.
- Organize a seven-chapter foundation volume covering developer workstation setup, repository architecture, automation architecture, GitHub workflows, documentation pipelines, enterprise infrastructure, and architecture fundamentals.
- Build Bash tools for repository bootstrapping, project and status configuration, issues, labels, milestones, chapter creation and migration, synchronization, and validation.
- Apply Git and GitHub workflows with branching, commits, pull requests, review, changelogs, contribution standards, and project-status tracking.
- Design publication pipelines targeting GitHub Pages, PDF, DOCX, and print-ready editions, with GitHub Actions planned for validation and release automation.
