

TIM FOX

Principal Network Engineer | Network Infrastructure Leader

United States | Open to Remote and Onsite Roles | timfox2025@tim.army | <https://github.com/derg20> | <https://www.linkedin.com/in/timarmy>

PROFESSIONAL SUMMARY

Principal Network Engineer and people leader with more than 20 years of experience designing, deploying, securing, and restoring mission-critical networks across enterprise, data center, healthcare, and federal environments. Brings hands-on multi-vendor expertise, an MBA, and a record of developing engineers through complex deployments and high-stakes operational challenges.

CORE COMPETENCIES

Network Engineering: BGP, OSPF, MPLS, IPv4/IPv6, VLANs, access control lists, routing, switching, architecture, implementation, troubleshooting, and Tier 3 support.

Platforms: Cisco IOS, IOS-XE, IOS-XR, Catalyst, ASR, ACI, APIC, Cisco 1001-X, Cisco 8000v, Juniper JUNOS, Palo Alto Networks, F5, Gigamon, TACLANE, Dell, VMware, VxRail, Linux, and Red Hat Enterprise Linux.

Leadership and Delivery: People management, mentoring, technical training, design reviews, implementation planning, documentation, stakeholder communication, escalation management, and operational support.

CERTIFICATIONS

- **Advanced Networking:** Cisco CCNP Enterprise, Cisco CCNA, and Juniper JNCIA-Junos.
- **Cybersecurity:** GIAC GCED, CompTIA Security+ CE, and Fortinet Certified Associate in Cybersecurity.
- **Cloud, Virtualization, and Data Center:** AWS Certified Cloud Practitioner, Dell VxRail Deploy Version 2, and VMware VCA-DCV.
- **DoD Workforce Qualification Alignment:** DoD 8570 IAT II and IAT III; DoD 8140-aligned qualifications.

PROFESSIONAL EXPERIENCE

LEIDOS INC.

Supervisor / Principal Network Engineer | March 2026-Present

- Lead and develop 2 direct reports on an approximately 12-person infrastructure engineering team, removing operational blockers and strengthening capability across Cisco, Juniper, Dell, and Red Hat technologies.
- Deliver technical training and knowledge transfer across Dell servers, Red Hat Enterprise Linux, Juniper routers, and Cisco routing and switching platforms.
- Direct complex multi-vendor network and infrastructure escalations through resolution.

FEDITC

Senior Network Engineer | July 2025-March 2026

- Co-designed classified and unclassified networks for Air Force executive aircraft, translating mission, security, availability, and interoperability requirements into deployable architectures.
- Evaluated pre-release TACLANE encryption equipment and documented operational findings and deployment considerations.
- Restored mission-critical connectivity by resolving Cisco IOS-XE, Palo Alto, routing, switching, firewall, and virtual networking issues while delivering Tier 3 support.

PROFESSIONAL EXPERIENCE - CONTINUED

AKIMA / TUNDRA LLC

Senior Deployment Network Engineer | April 2024-July 2025

- Reduced deployment risk by authoring network designs, implementation plans, test procedures, and technical documentation aligned with customer acceptance requirements.
- Planned, installed, configured, and validated Cisco, Dell, and VMware infrastructure across coordinated customer deployments.
- Improved team deployment capability through technical mentoring, demonstrations, and reusable engineering documentation.

MSM TECHNOLOGY INC.

Senior Data Center Network Engineer | November 2022-March 2024

- Strengthened data center security and IPv6 adoption by engineering Cisco ACI, Juniper, F5, Gigamon, routing, switching, and access control solutions.
- Served as a technical consultant across Cisco APIC and IOS-XE, Juniper JUNOS, F5, and Gigamon platforms.
- Improved troubleshooting readiness through multi-vendor documentation, demonstrations, technical training, and mentoring.

LEIDOS INC.

Lead Infrastructure Network Engineer | November 2019-November 2022

- Led Tier 3 escalations across BGP, OSPF, MPLS, firewalls, load balancers, Linux, routers, switches, and servers to restore complex multi-vendor services.
- Advised engineering and operations teams on design decisions, configuration changes, troubleshooting strategies, and implementation risks.
- Strengthened team readiness through technical documentation, demonstrations, and targeted training.

BJC HEALTHCARE

Senior Cisco Network Engineer Subject-Matter Expert | July 2017-January 2019

- Led engineering for a \$9.7 million hospital network modernization serving 2 hospitals and more than 40 clinics.
- Directed architecture, migration, implementation, validation, and technical coordination for highly available Cisco routing and switching infrastructure.
- Mentored engineers and project managers on technical dependencies, implementation risks, and network requirements.

PROFESSIONAL EXPERIENCE - CONTINUED

LEIDOS INC.

Senior Network Engineer Subject-Matter Expert | July 2016-July 2017

- Maintained uninterrupted support for the Defense Information Systems Agency Joint Regional Security Stack after the contract transitioned from Lockheed Martin to Leidos.
- Resolved Cisco, Juniper, Palo Alto, F5, Gigamon, Linux, BGP, OSPF, MPLS, and static-routing issues in a complex defense environment.
- Delivered senior engineering guidance and technical training across multi-vendor routing, security, and traffic-management platforms.

LOCKHEED MARTIN

Senior Network Engineer Subject-Matter Expert | March 2016-July 2016

- Established the engineering foundation for the Joint Regional Security Stack assignment later transitioned to Leidos.
- Supported Cisco IOS, IOS-XE, and IOS-XR routing and switching platforms in a complex defense environment.
- Advised cross-functional teams on multi-vendor routing, security, traffic management, and Linux technologies.

EDUCATION AND TECHNICAL DEVELOPMENT

Full-Time Education and Career Development | 2006-2016

- Earned associate and bachelor's degrees focused on information systems, networking, systems administration, and cybersecurity while transitioning from military service to civilian network engineering.
- Developed hands-on routing, switching, systems administration, and network security skills through formal education and technical lab work.

UNITED STATES ARMY

Information Technology Specialist | April 1999-March 2006

- Sustained 100% service availability for 2 internet cafes supporting 50 computers.
- Administered 2 Cisco routers, 1 Cisco switch, specialty fiber-optic cabling, and communications equipment.
- Served as a Windows domain administrator and provided technical support for approximately 800 users.
- Earned formal recognition for deploying the encrypted Defense Messaging System in Germany.

EDUCATION

WEBSTER UNIVERSITY - St. Louis, Missouri

Master of Business Administration | March 2025

Coursework included business and financial analysis, accounting, business strategy, and Securities and Exchange Commission filings.

MICHIGAN TECHNOLOGICAL UNIVERSITY - Houghton, Michigan

Bachelor of Science, Computer Networking and Systems Administration | 2011-2014

Coursework included project management, Cisco enterprise networking, network security engineering, Linux administration, and Windows Server administration.

JEFFERSON COMMUNITY COLLEGE - Watertown, New York

Associate of Applied Science, Computer Information Systems | 2007-2010

Foundational studies included information systems, computer networking, systems administration, and technical support.

PROFESSIONAL DEVELOPMENT

- CCIE Enterprise Infrastructure Advanced Training, Micronics Training | December 2025.
- AWS Certified Cloud Practitioner Essentials, Amazon Web Services | May 2025.
- Dell VxRail Installation and Implementation Training | October 2024.
- CCIE Routing and Switching Advanced Training, Micronics Training | February 2017.
- Completed the Developing the Leader Within Workshop, Atlanta, Georgia | August 2006; studied the five-level leadership framework for organizational development.

TECHNICAL LAB

- Operate a multi-vendor lab spanning Cisco routing and switching, Dell VxRail, virtualization, servers, and network security appliances.
- Publish the Enterprise Infrastructure Handbook in Markdown, combining architecture, configuration guidance, Bash automation, troubleshooting procedures, and hands-on labs.
- Automate repository bootstrapping, project configuration, documentation pipelines, synchronization, and validation with Bash tools.
- Design publishing workflows for GitHub Pages, PDF, DOCX, and print-ready editions.
