

TIM FOX

Principal Network Engineer | Infrastructure Engineering Supervisor | Multi-Vendor Enterprise and Defense Networks

United States | Open to Remote and Onsite Roles | timfox2025@tim.army | <https://github.com/derg20> | <https://www.linkedin.com/in/timarmy>

PROFESSIONAL SUMMARY

Principal Network Engineer and people leader with more than 20 years of experience designing, deploying, securing, and restoring mission-critical networks across enterprise, data center, healthcare, and federal environments. Brings hands-on multi-vendor expertise, an MBA, and a record of developing engineers through complex deployments and high-stakes operational challenges. Returned to Leidos across three separate tenures, each into a role of greater scope.

CORE COMPETENCIES

Network Engineering: BGP, OSPF, MPLS, IPv4/IPv6, VLANs, access control lists, routing, switching, architecture, implementation, troubleshooting, and Tier 3 support.

Platforms: Cisco IOS, IOS-XE, IOS-XR, Catalyst, ASR, ACI, APIC, Cisco 1001-X, Cisco 8000v, Juniper JUNOS, Palo Alto Networks, F5, Gigamon, HAIPE, Dell, VMware, VxRail, Linux, and Red Hat Enterprise Linux.

Leadership and Delivery: People management, mentoring, technical training, design reviews, implementation planning, documentation, stakeholder communication, escalation management, and operational support.

CERTIFICATIONS

- **Advanced Networking:** Cisco CCNP Enterprise, Cisco CCNA, and Juniper JNCIA-Junos.
- **In Progress:** Cisco CCIE Enterprise Infrastructure.
- **Cybersecurity:** GIAC GCED, CompTIA Security+ CE, and Fortinet Certified Associate in Cybersecurity.
- **Cloud, Virtualization, and Data Center:** AWS Certified Cloud Practitioner, Dell VxRail Deploy Version 2, and VMware VCA-DCV.
- **DoD Workforce Qualification Alignment:** DoD 8570 IAT II and IAT III; DoD 8140-aligned qualifications.

PROFESSIONAL EXPERIENCE

LEIDOS INC.

Supervisor / Principal Network Engineer | March 2026-Present (third tenure)

- Remove technical and operational blockers for 2 direct reports within an approximately 12-person infrastructure engineering team by coordinating access, equipment, documentation, training, and cross-team support.
- Direct complex multi-vendor network and infrastructure escalations through resolution.
- Deliver technical training and knowledge transfer that strengthens team capability across enterprise infrastructure platforms.

FEDITC

Senior Network Engineer | July 2025-March 2026 (contract recompleted)

- Restored mission-critical connectivity by resolving routing, switching, firewall, and virtual-network issues while delivering Tier 3 support.
- Co-designed networks for Air Force executive aircraft, translating mission, security, availability, and interoperability requirements into deployable architectures.
- Evaluated pre-release HAIPE encryption equipment and documented operational findings, interoperability risks, and deployment considerations.

AKIMA / TUNDRA LLC

Senior Deployment Network Engineer | April 2024-July 2025 (contract recompleted)

- Reduced deployment risk by authoring network designs, implementation plans, test procedures, and technical documentation aligned with customer acceptance requirements.
- Planned, installed, configured, and validated multi-vendor infrastructure across coordinated customer deployments.
- Improved team deployment capability through technical mentoring, demonstrations, and reusable engineering documentation.

MSM TECHNOLOGY INC.

Senior Data Center Network Engineer | November 2022-March 2024

- Strengthened data center security and IPv6 adoption by designing and implementing IPv6 access control lists.
- Engineered and supported data center infrastructure spanning routing, switching, firewalls, load balancing, packet brokering, and fabric environments.
- Improved troubleshooting readiness through multi-vendor documentation, demonstrations, technical training, and mentoring.

LEIDOS INC.

Lead Infrastructure Network Engineer | November 2019-November 2022 (second tenure; program sunset)

- Restored complex multi-vendor infrastructure services by leading Tier 3 escalations involving routing, traffic management, security, systems, and servers.
- Advised engineering and operations teams on design decisions, configuration changes, troubleshooting strategies, and implementation risks.
- Strengthened team readiness through technical documentation, demonstrations, and targeted training.

BJC HEALTHCARE

Senior Cisco Network Engineer Subject-Matter Expert | July 2017-January 2019 (role outsourced)

- Led engineering for a \$9.7 million hospital network modernization serving 2 hospitals and more than 40 clinics.
- Directed architecture, migration, implementation, validation, and technical coordination for highly available network infrastructure.
- Mentored engineers and project managers on technical dependencies, implementation risks, and network requirements.

DISA JOINT REGIONAL SECURITY STACK - LOCKHEED MARTIN, THEN LEIDOS

Senior Network Engineer Subject-Matter Expert | March 2016-July 2017 (contract transitioned to Leidos)

- Established the engineering foundation for the Defense Information Systems Agency Joint Regional Security Stack, then sustained uninterrupted support after the contract transitioned from Lockheed Martin to Leidos.
- Resolved complex routing, security, traffic-management, and Linux issues while delivering senior engineering guidance and technical training.

UNITED STATES ARMY

Information Technology Specialist | April 1999-March 2006 (Honorable Discharge)

- Sustained 100% service availability for 2 internet cafes supporting 50 computers.
- Administered 2 routers, 1 switch, specialty fiber-optic cabling, and communications equipment while supporting approximately 800 users as a Windows domain administrator.
- Earned formal recognition for deploying the encrypted Defense Messaging System in Germany.

EDUCATION

Attended college full time from 2007 to 2014 while transitioning from military service to civilian network engineering.

WEBSTER UNIVERSITY - St. Louis, Missouri

Master of Business Administration | March 2025

Coursework included business and financial analysis, accounting, business strategy, and Securities and Exchange Commission filings.

MICHIGAN TECHNOLOGICAL UNIVERSITY - Houghton, Michigan

Bachelor of Science, Computer Networking and Systems Administration | 2011-2014

Coursework included project management, Cisco enterprise networking, network security engineering, Linux administration, and Windows Server administration.

JEFFERSON COMMUNITY COLLEGE - Watertown, New York

Associate of Applied Science, Computer Information Systems | 2007-2010

Foundational studies included information systems, computer networking, systems administration, and technical support.

PROFESSIONAL DEVELOPMENT

- CCIE Advanced Training, Micronics Training | 2019-2026.
- AWS Certified Cloud Practitioner Essentials, Amazon Web Services | May 2025.
- Dell VxRail Installation and Implementation Training | October 2024.
- Completed the Developing the Leader Within Workshop, Atlanta, Georgia | August 2006; studied the five-level leadership framework for organizational development.

HOMELAB

- Operate a multi-vendor lab spanning Cisco routing and switching, Dell VxRail, virtualization, servers, and network security appliances.
- Publish the [Enterprise Infrastructure Encyclopedia](#) in Markdown, combining architecture, configuration guidance, Bash automation, troubleshooting procedures, and hands-on labs.
- Automate repository bootstrapping, project configuration, documentation pipelines, synchronization, and validation with Bash tools.
- Design publishing workflows for GitHub Pages, PDF, DOCX, and print-ready editions.
